The important information is given in despatch of Lord Kimberley, published fin the Gasette, that in pursuance of a Notice. given by the President of the Republic of the undermentioned dates :- (1). That of January 6th, 1874, relating to Extradition, August, 1878.

The Revised Regulations for preventing collisions at sea, which come into force (by an Order in Council) on the 1st day of September next, are published in the Gazetts. An Indian girl, Kurrab, a dancing and singing girl, charges three persons with bringing her into this Colony, by fraud, for the purposes of prostitution. This is the first case in which any charge of the kind has ever been heard in this Colony in which any other race or nation than Ohlness were primarily concerned. She also charges one of the defendants with assaulting and beating her while she was engaged in this abominable business under the coercion of the three of them. The case excites much interest : the present stage.

CERTAIN papers, which have been laid before the Legislative Conneil relating to the Mortuary Chapel in the Protestant Cemetery, appear in the Gasette. The first is a letter from the Surveyor General with reference to an item of \$1,000 inserted by him and approved by the Governor in the Draft Estimates for 1881 to defray the cost of rebuilding the Mortuary Chapel at the Protestant Cometery. The Colonial Chaplain had enquired of Mr Price whether that Honduras, the following Treaties between work could not be conveniently set in hand that country and Great Britain expired on this year instead of waiting until next December, as there was considerable inconve- of the Colony of Hongkong and its Denience in conducting funeral services in the on the 28th of February, 1878. On the same day as the letter is dated, Aug. 27th, the Governor made the following minute :---

The usual item of late years in the annual Estimates, of \$1,000 for the maintenance of the Protestant Cemetery, I have, at Mr Prior's request, doubled in the Estimates that I recently submitted to the Executive Council for the year 1881, on the ground that \$1,000 additional would be required to

As it now appears from the Surveyor General's letter of to-day's date, that the Colonial Chaplain would prefer to have this work taken in hand at once, let it be done and let a Supplementary Estimate for the current year be prepared. A corresponding reduction can be made in the Estimates for 1881 when the Legis ative Council are deal-An important case will be heard at the ing with the votes next week in Committee.

CERTAIN correspondence is published in the Gazette, under the heading of "Officers of the Supreme Court," which throws some light upon the course events are likely to take as to that matter. The documents are prefaced by a letter addressed to the Chief Justice in 1876, when Sir Arthur Kennedy was Governor, in which the principle of Sir John Smale's responsibility for the regulation of the officers is very clearly laid down, notwithstanding the fact alleged by the Chief Justice that these duties had been delegated to the late Mr Alexander (Rewe refrain from opinionative comment at gistrar). The documents which immediately follow this letter refer to the temporary and provisional measures taken by the WE have received a very handsomely present Governor, upon the joint recomprinted " Memoria dos Festejos celebrados | mendation of the Commissioners and of the em Hongkong por occasião do Tricentenario Judges (Sir John Smale and Mr Justice do Principe dos Poetas Portuguezes Luiz Francis). Whereas Her Majesty's Government have sanctioned the building of five new Government Schools in this Colony; and whereas I deem it expedient, before authorizing the Plans and Estimates for such Schools, to enquire to what extent and at what cost and under what circumstances such new Schools may be made to take the place of the Central School in giving an elementary Education; and whereas I deem it desirable to enquire further at what cost and with what staff and organization the Central School may be raised into a Collegiate Institution, giving a Higher Education in English and Science and drawing Students from the new Subsidiary Schools and elsewhere; and whereas such enquiries will be most convenien ly prosecuted by means of officer in the Buffs, with which he had seen Commission: I. Ir is proposed to start a Polo Club at Shanghai; the Rangers have taken up the idea and a preliminary meeting of those interested in the matter was to be held on the 26th at the Drill Compound of Messra Holliday Wise and Co. From the circular onvening the same we quote :--

A Polo Club is said to have been in existence since about five months in Hongkong, a fact which will enable the Rangers to set theirs on foot at once. It is not intended that the Polo Club should be exclusively for Rangers, but simply that it should be set on foot by them as a body of horsemen. The recreation ground is admirably adapted for the game and the China Pony is par excellence a Polo pony.

Vice-Admiral Coote, the present commander-in chief in Chica, being first on the list for promotion to the rank admiral, rumour is already busy in naming his auccessor to the China command. Vice-Admirals Rice and Hillyar are the two officers between whom the selection is said to lie, the former being the favourite. Both will have to retire in 1884. As stirring events are likely soon to take place in China, thorough fitness for the post should alone be Lord Northbrook's guide in nominating for the appointment. The Naval and Military Gazetts announces that the command will probably be offered to Vice-Admiral G. O. Willes. - U. S. Gazette.

THE aunouncement that H. M. S. Vigilant which has been laid up in our harbour for some time, is now under orders to proceed with Admiral Coote to Chefoo, has elicited much indignation and surprise. The vessel -a typical specimen of Mr Reed's improvements-is a weak ship; she has but one wheel available, as her shaft is broken on one side, and as at all times the vessel has indifferent sea going qualities she must. now that she is partially disabled, be upfi to meet the rough seas and winds of northern Chinese waters in the typhoon season. We hope Admiral Coots will, for sake of homanity, reconsider his decision. The Vieilant is not fit to cope with bad weather, and if any disaster occurs a most serious responsibility will rest upon the Admiral. With the Afglanta disaster fresh in memory it behaves the public to keep an unusually watchful eye upon the movements and condition of the vessels composing H. B. M. fleet. No merchant steamer in the condition of the Vigilant would be allowed to go to sea. The insurance would be vitiated, the crew would refuse to work, and the consul could detain the yessel. It is notorious that the Vigilant is unfitted for work, and that she should stay here until a new shaft can be placed It is high time that some public action should be taken about the unseaworthy vessels of the British fleet in China and Japan. - Japan Gazette.
